Athens, 03 December 2010

We would like to inform about an initiative of Attica Expo International, a group that allocates long-lasting and precious experience at the exterior trade, in which the company aspires to support an important effort that will constitute a basic infrastructure for the promotion of the international merchandising relations with Greece in bilateral and multilateral level.

Indubitably, because of the current economic crisis it is essential the undertaking of enterprising initiatives with the creation of basic infrastructures permanent and no occasional character with the adoption of responsible object- diagrams of prospect and only such character initiatives they will be proved viable and advantageous.

With this initiative, Attica Expo International aspires to create a modern Exhibition Centre that will play a decisive role and will give the ease to the commercial company to ensure with the best terms their enterprising growth with competitive advantages, with consequently, responsibility and the lowest costs that will allow them to expand continuously their commercial activity.

Today, our group allocates modern building establishments of a total surface of almost 11.000 square meters in a nodal place of Attica where will entertain our Exhibition Centre having high European models with main aim the attracting of commercial interest in the geographical areas of Balkans, Middle East, former USSR, and Central Europe. Certainly and progressively the interest will be expanded all over the world by Latin America up to

Australia. The Exhibition Centre is going to provide, at the entertained enterprises, services of permanent showroom and merchandising centre of samples, orders, distributions, transports, banking transactions- processes, negotiations, presentation and relevant operations.

The advantages of our work and our services that we want to provide are the low cost of the operation, our economic sufficiency, our long-lasting experience in issues of the exterior trade and the needs of commercial companies. Finally, the location of our installations is abstained only 30 kilometers from the airport of Athens.

The philosophy of our undertaking is, this Exhibition Centre, to have a collective form and each entertained enterprise to be a member against the symbolic subscription of 100 Euros annually, in order to be felt that this modern transit centre will be as their own house where may be their permanent installation and specifications that completely satisfy its needs and also the customers- collaborators needs to demonstrate the products and the services and to, develop in the extreme the commercial activity of the company. The companies- member of our Exhibition Centre will enjoy preferential decreased at the 10 per cent of the prices of the attendance in the Exhibition, free entrance and also moreover benefits that will be provided in the Exhibition Centre . The cost of the installation at the Exhibition Centre for the entertained enterprises will indicatively be the amount of 80 Euros per month per square meter. Moreover the entertained companies will be compelled in payment of supply 2 per cent on the crude income by the transaction that will be realized in the Exhibition Centre.

With the conviction that in the near future we will welcome you as one of our members, we thank you in advance.
