

Mechanical Engineering and Metalworking Forum,
Riga, 25th November, 2020

*Sourcing Issues – Panel discussion: Global Supply
Chains and “Covid-19” influence. Is it a chance for
Latvia to continue?*

Serving different industries

Fire fighting and rescue platforms

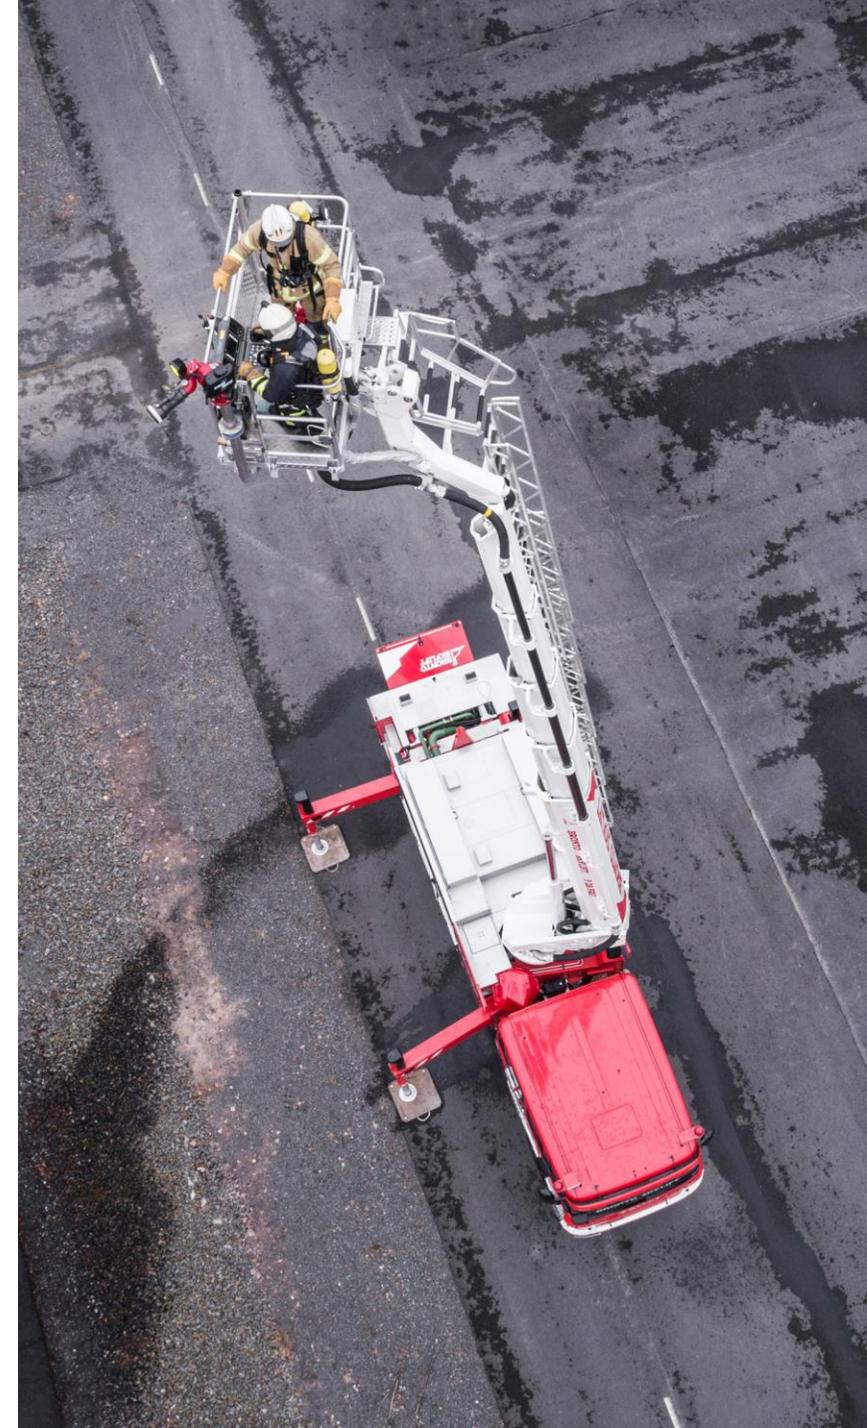

Industrial access platforms

Service and maintenance

COVID -19 influence

- Safety and precautions actions
 - Travelling and other restrictions
 - Working remotely
 - Online web camera connections
- Industries in 2021: a slow recovery
 - Job losses and bankruptcies are likely to occur
 - Some governments will aim to support a green recovery
 - Trade spats and international disputes will remain disruptive
 - Digitalization will offer the biggest opportunities
 - The implications for growth
 - The companies will be focused on the search for sales growth to aid their recover

What next?

- Visibility
- Speed of recovery
- Governments incentives
- Digitalization opportunities defining “new normal”
