WHY with FUKUOKA?

FUKUOKA IS the most popular and fastest growing Startup city in Japan.
The Fukuoka Global Startup Centre had a longstanding relationship with the LIAA, and this event continues to strengthen collaboration between Fukuoka and Latvia.
We are currently selected by the Japanese government as one of the candidate cities for competing to become Japan's next international financial center.
FinTech is now one of our focused fields!

WHAT is Rising Startups of Latvia?

GSC is Fukuoka city's contact window for foreign startups, and we provide a variety of support to expand business in the Japanese/Fukuoka market. Our focus now is business matching with local companies.
During the event, we will invite 5 startups from Latvia, and they will each get 15 min, 5 min to pitch, then discussion for 10 min.
The GSC and LIAA will give advice on concerns you might encounter when entering the foreign markets, and we discuss the possibilities of expansion of their business in Japan.
